

OPUS CONSTRUCTION PRODUCT DATA

SOLVENT CLEANER

Description

A selected blend of organic solvents and reactive ingredients. Formulated to provide a versatile product for the cleaning of plant and equipment when in contact with resin products, bitumen based products etc.

Advantages

Versatile product for general cleaning applications when resin, epoxy, polyester or polyurethane compounds have been in use.

Properties

Appearance:	Clear, colourless, very faint straw coloured liquid of very low viscosity.
Density:	0.897 @ 15°C
Flash Point:	50°C
Freezing Point:	-20°C
Storage Life:	Indefinite in manufacturers sealed containers.

Applications

Cleaning of equipment for the following products: Form coatings; Resin curing compounds (in hardened state); Resin systems (Polyester, Epoxy and Polyurethane); Bitumen based products. As a general-purpose solvent for removal of stains on various substrates when used with a poultice process.

Handling

This material is designed for use as a general purpose cleaner, normal safety precautions should be taken with regard to use near naked flames, foodstuffs, children and continuous contact with skin.

Packaging

205 litre steel drums & 20 litre metal drums or heavy duty plastic containers.

Recommendation

Always test on inconspicuous area before full-scale use.

Revision Date: May 2016
