

# OPUS LUBRICANTS PRODUCT DATA

## ALLPLANT IGNITE (Diesel Fuel Treatment and Enhancer)

### Description

**OPUS ALLPLANT IGNITE** is a high specification diesel fuel treatment and enhancer for application to all agricultural machinery, tractors, combine harvesters and ancillary equipment. Allplant is also suitable for forestry and construction machinery, bulldozers, earth moving equipment, off road vehicles, foragers and forwarders.

### Benefits & Performance Levels

- 1 part of **Allplant Ignite** to 1500 parts diesel fuel assures minimal treat cost.
- For best results add **Allplant Ignite** directly to empty fuel tank prior to filling with fuel.
- Enhances cold flow properties of diesel fuel.
- Significantly reduces smoking and harmful emissions.
- Increases fuel cetane rating, improving power output and cold starting.
- Improves power output and engine performance.
- Reduces fuel consumption, typically by up to 5%.
- Cleans and protects injectors.
- Stabilises Diesel fuels held in long term storage for a period of up to 12 months (e.g. combine harvesters) , slowing deterioration and ensuring the fuel's integrity and useability , for the new season.
- Protects components from the harmful effect of moisture droplets in the fuel.
- Suitable for application to Bio fuels, B5 to B100.

### Storage

All packages should be stored under cover. Where outside storage is unavoidable drums should be laid horizontally to avoid the possible ingress of water and the obliteration of drum markings. Products should not be stored above 60°C, exposed to hot sun or freezing conditions.
